PROFILE:

I am a dedicated and motivated fourth-year Information Technology student with practical experience in software development and database management. I enjoy working in collaborative environments and tackling complex technical challenges with innovative and logical solutions. My experience spans front-end and back-end development, documentation, and database design.

EXPERIENCE:

FULL STACK DEVELOPER-ADVANCE DATABASE

– SOLO PROJECT-2023

- Independently developed a Driving School Management System integrating both front-end and back-end technologies
- Designed database schemas and handled CRUD operations using PHP and MySQL

FRONT-END DEVELOPER ASSISTANT-CYPHEX – SOFTWARE ENGINEERING PROJECT

2024

- Contributed to front-end development as part of the CyphEx software engineering team
- Implemented interactive user interfaces aligned with modern UX/UI principles
- Documented the entire software development process from data gathering to client system turnover

BACKEND DEVELOPER/SYSTEM ANALYST

CAPSTONE PROJECT – ML-POWERED ENROLLMENT SYSTEM-2025

- Developed the back-end of a machine learning-powered enrollment system using Python and Django.
- Managed database operations and integrated student classification features.
